FOR A HEALTHIER
TOMORROW

SIMPLIFY YOUR DICOM PRINTING WORKFLOW

Remove complexity. Improve efficiency. Get reliable results.

THE DICOM PRINTING CHALLENGES

Printer drivers create compatibility issues

Communication between devices can be complicated when using printer drivers.

Printing can overload imaging devices

Printing should not place additional demands on your medical imaging equipment.

Inconsistent print results

Medical images require high-quality, reliable and consistent output.

Complex installation and configuration

Traditional printing solutions often require time-consuming setup.

THE PRINTRONIX SOLUTION

Printronix DICOM solutions are designed to simplify medical image printing while reducing reliance on traditional printer drivers.

NanoRIP DICOM Hardware

A hardware solution to transform Printronix printers into dedicated DICOM medical printers.

DICOM RIP SCP Software

A software solution to install on a Windows-based PC, for printing medical images using office printers and MFPs.

A SIMPLIFIED DICOM PRINTING WORKFLOW

No printer drivers.

Reduced load on
imaging equipment.

Reliable, high-quality
DICOM printing.

PRINTRONIX **DICOM** PRINTERS

Proven performance. Exceptional image quality.

PRINTRONIX LP654C

Compact. Versatile. Reliable.

Ideal for:

- ✓ Private hospitals
- ✓ Specialist clinics
- ✓ Medical centres
- ✓ Dental practices

PRINTRONIX LP844C

High performance for high-volume printing.

Ideal for:

- ✓ Large hospitals
- ✓ High-volume radiology departments
- ✓ Imaging centres

SUPPORTED IMAGING MODALITIES

Metro-Sol DICOM solutions support medical images from:

DIGITAL
X-RAY

CT
SCANNER

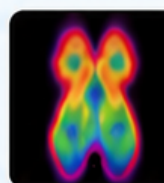

MRI
